Lighting Mirrors

*Espejos Iluminados*

# MIRRORS *by* ACB

ACB Iluminación specializes in the manufacture of custom-made mirrors for interior design projects.

We have a division dedicated to the development, manufacture and customization of any mirror. The client can choose the format, lighting system, accessories and design. In addition to the light, we can add music and even a TV, with the same functions as current SMART TV or mobile phones.

To request a quote, we have a form on our website, where customer can choose all options.

We offer items ready to ship as well as design that are manufactured on demand. All mirrors are made in Spain.

ACB Iluminación, está especializada en la fabricación de espejos a medida para proyectos de interiorismo.

Disponemos de artículos ya fabricados de entrega inmediata así como de modelos que solo se fabrican bajo pedido. Todos los espejos están fabricados en España.

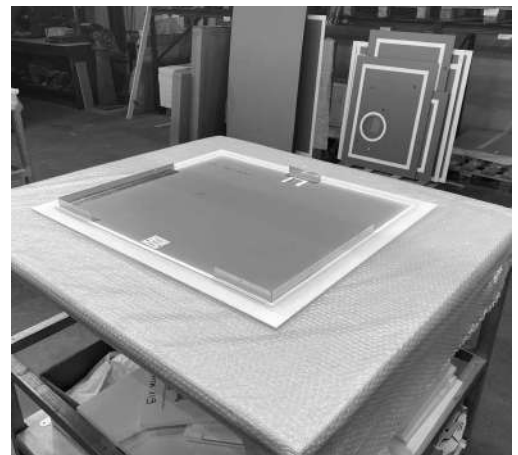

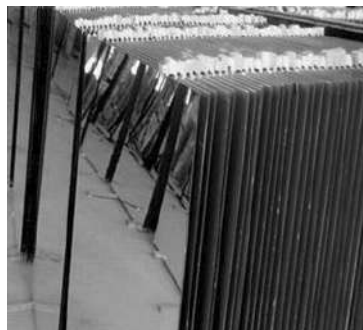

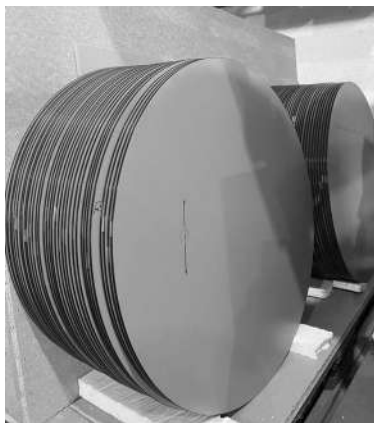

Contamos con una división dedicada al desarrollo, fabricación y personalización de cualquier espejo. El cliente puede elegir el formato, sistema de iluminación, accesorios y diseño de los mismos. Además de la luz, podemos añadir música y hasta una TV, con las mismas funciones de las actuales SMART TV o de un móvil.

Para pedir un presupuesto, disponemos de un formulario en nuestra web, donde se puede elegir todas las opciones.

# SMART TV MIRROR

Espejos Iluminados

Smart mirrors are a trend in the world of residential, hotel, business or services interior design. Our mirrors with integrated SMART television allow you to access to the most current services on the network, such as movie rentals, YouTube, and much more.

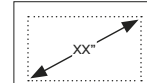

Smart TV mirrors can be customized both in the size of the television from 8" (20cm) up to 100" (254cm), as well as the mirror, types of lighting and with different connectivity and entertainment options.

Los espejos inteligentes son tendencia en el mundo del interiorismo residencial, hotelero, empresarial o de servicios. Nuestros espejos con televisión SMART integrada, permiten acceder a los servicios más actuales de la red, como alquiler de películas, youtube, y mucho más.

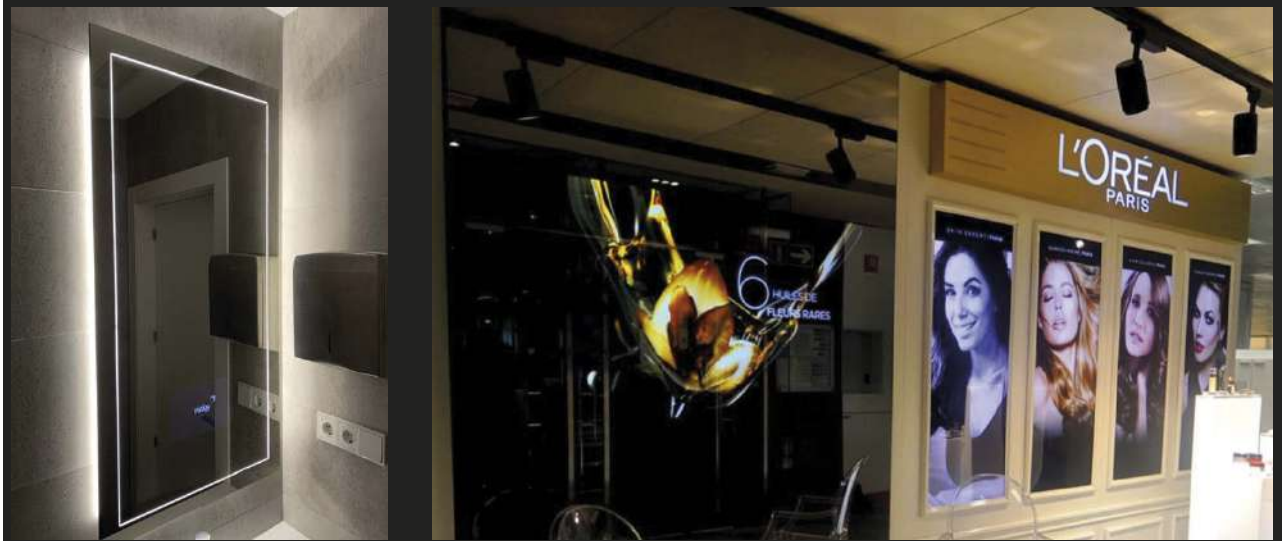

Los Smart TV mirror, se pueden personalizar tanto en el tamaño de televisión de 8" (20cm) hasta 100" (254cm), como del espejo, tipos de iluminación y con diferentes opciones de conectividad y entretenimiento.

# CONTROL OPTIONS OPCIONES DE CONTROL

## CASAMBI BLUETOOTH technology

Iluminación de Techo

Ceiling Lamps

The Casambi app is the easiest and most natural way to control your lights. With the app you can control both Casambi enabled lighting fixtures and Philips Hue bulbs. The first time use has been made easy and intuitive. With one tap you are ready to control your lights.

Controlling all your lamps from one view: With the Casambi app you can control all your lighting fixtures with one view. It is possible to control your lights individually or as a group. For example you can create a group of your kitchen, office or shop lights and turn them all off / on with just one tap. Or you can dim the living room lights to pleasant light level for a movie.

Control your lights from a photo: The Gallery in Casambi app is the most natural way of controlling your lights. Take a picture of your room(s) and place the lamp controls over the lighting fixtures in the picture. Now you can control your lighting fixtures visually right from the picture.

Create scenes for different lighting situations: You can create different scenes for different occasions. Set the lights just right for dining, office environments or shop promotions and save the settings in a scene. Now you can change the lighting with one tap for different occasions for example a dinner party or a meeting with a customer.

Share your network and allow other devices to control your lights: Casambi has four different levels for sharing and access control. You can decide if your network is open to everyone or if other users need a password to access your network. If you have several users and devices using the same network, all the changes made with one device will be automatically updated to the other devices with Casambi cloud service.

La app Casambi es la forma más sencilla y natural de controlar tus lámparas. Con ella podrás controlar tanto los dispositivos habilitados con la tecnología Casambi así como bombillas Philips Hue. La puesta en marcha se realiza de forma fácil e intuitiva. Simplemente con una pulsación estarás preparado para controlar toda tu iluminación.

Controla todas tus lámparas a través de la misma interfaz: Con la app Casambi podrás controlar todas tus lámparas desde la misma pantalla. Es posible controlarlas individualmente o por grupos. Por ejemplo, puedes crear un grupo con las lámparas de tu cocina, oficina o tienda y encender/apagar todas ellas con una única pulsación. También puedes regular las lámparas de tu salón fijando un nivel de luz agradable para ver una película.

Controla tus lámparas desde una fotografía: La Galería en la app Casambi es la forma más natural de controlar tu iluminación. Toma una fotografía de tu(s) estancia(s) y coloca los controles de lámpara sobre ellas en la fotografía. Ahora puedes controlar tus lámparas visualmente desde la propia fotografía.

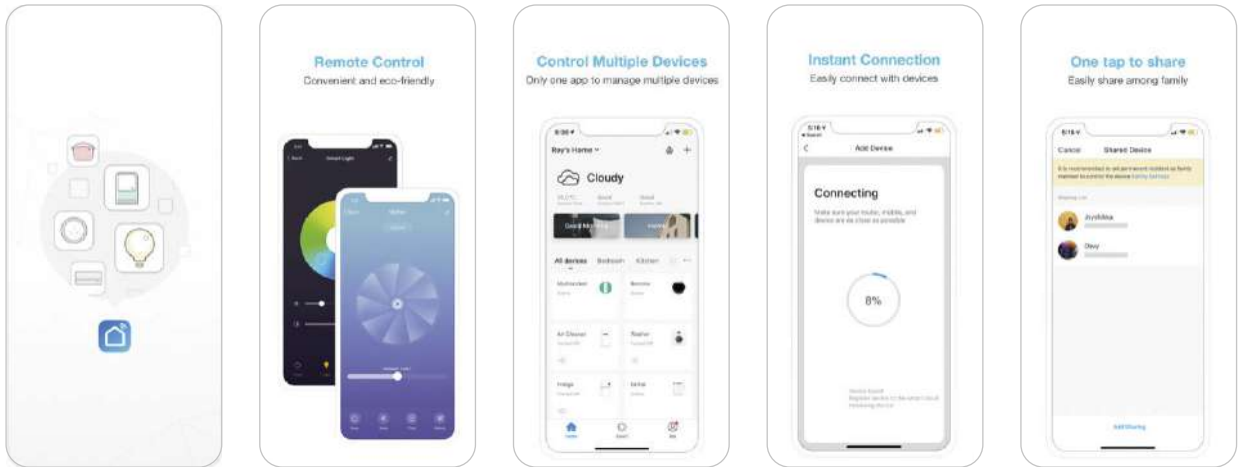

Crea escenas para distintas situaciones: Puedes crear varias escenas para diferentes ocasiones. Establece la iluminación adecuada para una fiesta, entornos de oficina o promociones de una tienda y guarda la configuración en una escena. Ahora puedes cambiar la iluminación con una única pulsación para adecuarla a diferentes situaciones, por ejemplo, una cena o una reunión con un cliente.

Comparte tu red y permite a otros dispositivos controlar tus lámparas: Casambi tiene cuatro niveles diferentes para compartir y controlar el acceso a tu red. Puedes decidir si tu red se encuentra abierta a todo el mundo o si se necesita una contraseña para acceder a ella. En caso de que varios usuarios/dispositivos estén utilizando la misma red, todos los cambios realizados con un solo dispositivo se actualizarán automáticamente en los demás dispositivos a través del servidor en la nube Casambi.

# CONTROL OPTIONS OPCIONES DE CONTROL

## SMART LIFE WIFI technology

Smart life, smart living...

- Remotely control home appliances from anywhere.
- Add and control multiple devices at once with one App.
- Voice control via Amazon Echo and Google Home.
- Interworking of multiple smart devices. Devices automatically start/stop working based on temperature, location and time.
- Easily share devices among family members.
- Receive real-time alerts to ensure safety.
- Easily and quickly connect Tuya Smart App to devices.

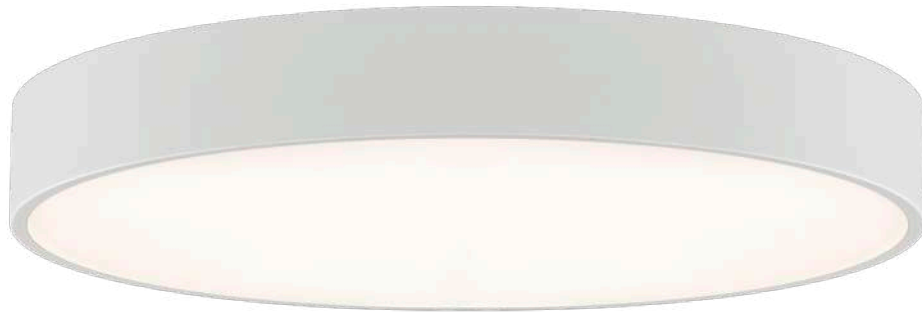

Vivienda inteligente, vida inteligente...

- Controle de forma remota los electrodomésticos desde cualquier lugar.
- Agregue y controle múltiples dispositivos a la vez con una aplicación.
- Control de voz a través de Amazon Echo y Google Home.
- Control de múltiples dispositivos inteligentes. Los dispositivos comienzan / dejan de funcionar automáticamente según la temperatura, la ubicación y la hora.
- Comparta fácilmente dispositivos entre miembros de la familia.
- Recibir alertas en tiempo real para garantizar la seguridad.
- Conecte fácil y rápidamente la aplicación inteligente Tuya a los dispositivos.

## Tunable White

Iluminación de Techo

Studies on circadian cycles that affect natural light temperature changes from dawn to dusk influence people's well-being, getting to reproduce the same light tones in closed environments, such as offices, hospitals and airports, can be beneficial for people. Our Tunable White PCB together with its controllers allow the mixing of warm light and cold light, can reproduce all temperatures from 2700K to 6500K.

Estudios sobre los ciclos circadianos demuestran que los cambios de temperatura de la luz natural desde el amanecer hasta el anochecer, influyen sobre el bienestar de las personas. Conseguir reproducir los mismos tonos de luz en entornos cerrados, como oficinas, hospitales y aeropuertos, puede ser beneficioso para las personas. Nuestras PCB Tunable White junto con sus controladores permiten la mezcla de luz cálida y luz fría, permitiendo reproducir todas las temperaturas desde 2700K hasta 6500K.

## Xpress

Xpress is a wireless user interface that brings huge flexibility to interior design as furniture can be replaced or even walls can be rebuilt without having to take wiring of switches or switch placement into account. The switch can be kept wherever the user needs it and it gives direct access to all the important Casambi lighting control functionalities

Basic Functions: The Preset buttons of Xpress can be configured via the Casambi app. A light indicates the selected preset.

Dim up/down: Smooth dimming of last chosen preset. Multipurpose buttons: Change of colour temperature in steps of 25 Kelvin. Change of the indirect/direct ratio. Preset Buttons: Individual luminaire control .Group control. Control of all lamps. Recall scenes. Recall animations.

Xpress es una interfaz de usuario inalámbrica que ofrece una enorme flexibilidad al diseño de interiores, pues permite redecorar espacios y añadir o quitar paredes sin necesidad de tener en cuenta el cableado ni la ubicación de los interruptores. El interruptor se puede guardar donde el usuario lo necesite y ofrece acceso directo a todas las funciones importantes de control de iluminación de Casambi.

Funciones básicas: Los botones de preajuste del Xpress se pueden configurar mediante la aplicación Casambi. Una luz indica el preajuste seleccionado. Bajar/Subir intensidad: Atenuación suave del último reajuste elegido. Botones multifunción: Cambio de temperatura del color en pasos de 25 kelvins. Cambio de la relación indirecta/directa. Botones de preajuste: Control individual de luminarias. Control de grupo. Control de todas las lámparas. Recuperar escenas. Recuperar animaciones.

## Surface MOTION SENSOR SENSOR MOVIMIENTO Superficie

The CBU-CESR-OLF surface sensor is controlled wirelessly with the CASAMBI app. It has a high precision presence and light detector and works with the CASAMBI wireless control system via Bluetooth. The equipment can be configured in different ways to activate scenes of any luminaire in the CASAMBI network by presence or illuminance or scenes that follow the circadian rhythm according to the time of day, if we have a luminaire with dynamic white (TW LED). The CBU-CESR-OLF sensor is a perfect solution to install on the ceiling of any area, corridors, bathrooms, bedrooms or any other area with heights between 2.4 and 5 meters.

It can also be controlled from a standard wall switch with the "Smart Switching" function. By turning on and off quickly we can change scenes or make the regulation itself. This device can interact with any CASAMBI device.

El sensor de superficie CBU-CESR-OLF se controla de forma inalámbrica con la aplicación CASAMBI. Tiene un detector de presencia y luminosidad de alta precisión y funciona con el sistema de control inalámbrico CASAMBI mediante Bluetooth. El equipo se puede configurar de diferentes maneras para activar escenas de cualquier luminaria de la red CASAMBI por presencia o iluminancia o escenas que siguen el ritmo circadiano según la hora del día, si tenemos una luminaria con blanco dinámico (LED TW).

El sensor CBU-CESR-OLF es una solución perfecta para instalar en el techo de cualquier zona, pasillos, baños, habitaciones o cualquier otra zona con alturas entre 2,4 y 5 metros.

También se puede controlar desde un interruptor de pared estándar con la función "Smart Switching". Encendiendo y apagando rápidamente podemos cambiar de escenas o hacer la propia regulación. Este dispositivo puede interactuar con cualquier dispositivo CASAMBI.

6DET008

Ø91 x 49 mm

## Recessed MOTION SENSOR SENSOR MOVIMIENTO Empotrable

The CBU-CEFL-OLF recessed sensor is controlled wirelessly with the CASAMBI app. A 73-75mm diameter hole must be made for its installation and the ceiling must have a minimum height of 78mm. It has a high precision presence and light detector and works with the CASAMBI wireless control system via Bluetooth. The equipment can be configured in different ways to activate scenes of any luminaire in the CASAMBI network by presence or luminosity or scenes that follow the circadian rhythm according to the time of day, if we have a luminaire with dynamic white (TW LED).

The CBU-CEFL-OLF sensor is a perfect solution to install on the ceiling in any area, corridors, bathrooms, bedrooms or any other area with heights between 2.4 and 5 meters.

It can also be controlled from a standard wall switch with the "Smart Switching" function. By turning on and off quickly we can change scenes or make the regulation itself. This device can interact with any CASAMBI device.

El sensor para empotrar CBU-CEFL-OLF se controla de forma inalámbrica con la aplicación CASAMBI. Hay que realizar un agujero de diámetro 73-75mm para su instalación y el techo debe tener una altura mínima de 78mm. Tiene un detector de presencia e luminosidad de alta precisión y funciona con el sistema de control inalámbrico CASAMBI mediante Bluetooth. El equipo se puede configurar de diferentes maneras para activar escenas de cualquier luminaria de la red CASAMBI por presencia o luminosidad o escenas que siguen el ritmo circadiano según la hora del día, si tenemos una luminaria con blanco dinámico (LED TW).

El sensor CBU-CEFL-OLF es una solución perfecta para instalar en el techo de cualquier zona, pasillos, baños, habitaciones o cualquier otra zona con alturas entre 2,4 y 5 metros.

También se puede controlar desde un interruptor de pared estándar con la función "Smart Switching". Encendiendo y apagando rápidamente podemos cambiar de escenas o hacer la propia regulación. Este dispositivo puede interactuar con cualquier dispositivo CASAMBI.

## REMOTE CONTROL MANDO A DISTANCIA

### MULTICANAL

By installing our DALI receiver, we can control our DALI luminaires with this multi-channel control; this control can control up to 4 groups of luminaires, and can also be linked to infinite receivers, and control with a single control all the luminaires desired (as long as a signal is received). It also has 3 memory positions capable of storing different configurations between groups. No additional installation is required, i.e. a standard two-wire on/off installation can be used; the receiver is responsible for generating the DALI bus. It is also possible to control the luminaire from a push button by running an extra cable to the luminaire. One receiver is required for each luminaire.

Instalando nuestro receptor DALI, podemos controlar nuestras luminarias DALI con este mando multicanal; este mando puede controlar hasta 4 grupos de luminarias, y además se puede vincular a infinitos receptores, y controlar con un único mando todas las luminarias que se deseen (siempre que se reciba señal). También dispone de 3 posiciones de memoria capaz de almacenar distintas configuraciones entre grupos. No se requiere una instalación adicional; es decir que podemos usar una instalación on/off estándar de dos cables; el receptor se encarga de generar el bus DALI. También se podrá controlar la luminaria desde un pulsador haciéndole llegar un cable extra a la luminaria. Se necesita un receptor por cada luminaria.

XCONTROL001

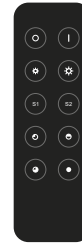

120 x 55 x 17 mm

SIGNAL (RF)

### MONOCANAL

By installing our DALI receiver, we can control our DALI luminaires with this mono channel remote control. This option does not require an additional installation; that is, we can use a 2 wires standard on/off installation. The receiver is responsible for generating the DALI bus. Also, the item can be controlled by a push switch by adding an extra wire. Please use one receiver per item.

Instalando nuestro receptor DALI, podemos controlar nuestra luminarias DALI con este mando mono canal. No se requiere una instalación adicional; es decir que podemos usar una instalación on/off estándar de dos cables; el receptor se encarga de generar el bus DALI. También se podrá controlar la luminaria desde un pulsador haciéndole llegar un cable extra a la luminaria. Se necesita un receptor por luminaria.

XCONTROL021

141 x 35 x 8,5 mm

SIGNAL (RF)

### RECEIVER (REMOTE CONTROL) RECEPTOR (MANDO A DISTANCIA)

By installing this receiver in a luminaire (without power limitation), we can control our DALI product with RF signal (remote control). The receiver requires direct 230V AC power supply and generates the DALI signal that communicates with the driver, so that no additional cables are needed in the installation.

To be able to switch on, off and dim from the wall and in a switched manner with the remote control, an additional cable must be installed up to the luminaire and the switch must be replaced by a push button; this is how to install for optimal functioning if dimming is also desired from the wall. One receiver can support up to 8 remote controls.

Instalando este receptor en una luminaria (sin limitación de potencia), podemos controlar nuestro producto DALI con señal RF (control con mando). El receptor requiere alimentación directa 230V AC y genera la señal DALI que se comunica con el driver, de modo que no se necesitan cables adicionales en la instalación. Para poder encender, apagar y regular desde la pared y de manera conmutada con el mando, hay que instalar un cable adicional hasta la luminaria y cambiar el interruptor por un pulsador; esta instalación es la más recomendable para su correcto funcionamiento si se quiere regular también desde la pared. Un receptor puede soportar hasta 8 mandos.

XDRVPART008

76,5 x 51 x 25 mm

SIGNAL (RF)

## SMART CONTROL CONTROL INTELIGENTE

By installing this receiver in a luminaire with a power of less than 250W, we can transform our TRIAC product into Smart and control it from the mobile through the "SMART LIFE" application, also compatible with any smart speaker: Alexa, Google home and others (no need for Gateway or smart speaker with Zigbee).

The luminaire cannot be switched on from a wall switch. To turn it on you must first link it with the APP using a 2.4Ghz wifi network.

To be able to switch on, off and dim from the wall and in a switched manner with the APP, an additional cable has to be installed to the luminaire and the switch has to be replaced by a push button; this is how to install for optimal functioning if dimming is also desired from the wall.

Instalando este receptor en una luminaria con potencia inferior a 250W, podemos transformar nuestro producto TRIAC en Smart y controlarlo desde el móvil a través de la aplicación "SMART LIFE", también compatible con cualquier altavoz inteligente: Alexa, Google home y otros (sin necesidad de Gateway ni altavoz inteligente con Zigbee).

La luminaria no se puede encender desde un interruptor de pared. Para encenderla primero hay que vincularla con la APP usando una red wifi de 2.4Ghz.

Para poder encender, apagar y regular desde la pared y de manera conmutada con la APP hay que instalar un cable adicional hasta la luminaria y cambiar el interruptor por un pulsador. Esta instalación es la más recomendable para su correcto funcionamiento.

## PRISMATIC DIFFUSER DIFUSOR PRISMÁTICO

The optimum micro photometric structure provides diamond-like brilliance and perfect glare control and defined light distribution, guaranteeing highest transmission. The inverse structure of the diffuser avoids predetermined breaking points due to excellent glare control and light distribution.

Lighting applications UGR <19. Excellent lighting for workstations. Homogeneous glare reduction in all C-levels. Homogeneous appearance due to uni-directional structure. Perfect light distribution due to inverse micro prismatic structure. Individually tinted designs ensure optimum glare reduction at a high efficiency level. Transmission 93%.

La óptima estructura microfotométrica proporciona un brillo similar al de un diamante y un control perfecto del deslumbramiento, y una distribución de luz definida, lo que garantiza la máxima transmisión.

La estructura inversa del difusor evita puntos de rotura predeterminados debido al excelente control del deslumbramiento y distribución de la luz. Aplicaciones para iluminación UGR <19.

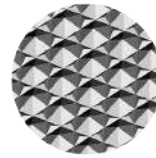

Excelente iluminación para puestos de trabajo. Reducción homogénea del deslumbramiento en todos los niveles C. Aspecto homogéneo debido a la estructura unidireccional. Perfecta distribución de la luz, gracias a la estructura microprísmática inversa. Los diseños tintados individualmente garantizan una reducción óptima del deslumbramiento con un alto nivel de eficiencia. Transmisión 93%.

## CRI (Chromatic Reproduction Index) CRI (Índice de Reproducción Cromática)

The color rendering index of a light is a measure of its ability to reproduce the colors of various objects faithfully in comparison with an ideal or natural light source. Capacidad para reproducir los colores en comparación con una fuente de luz natural.

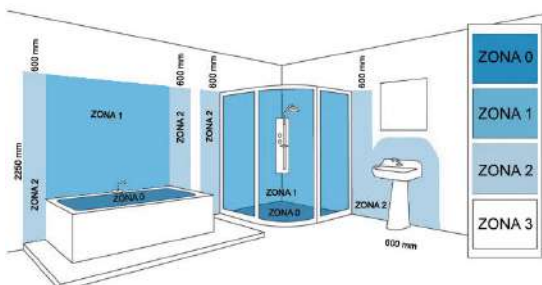

## IK DEGREE GRADO IK

IK ratings are defined as IKXX, where "XX" is a number from 00 to 10 indicating the degrees of protection provided by electrical enclosures (including luminaires) against external mechanical impacts. The IK rating scale identifies the ability of an enclosure to resist impact energy levels measured in joules (J).

Las clasificaciones IK se definen como IKXX, donde "XX" es un número del 00 al 10 que indica los grados de protección proporcionada por las envolventes eléctricas (incluidas luminarias) contra elementos externos impactos mecánicos. La escala de clasificación IK identifica la capacidad de una carcasa para resistir niveles de energía de impacto medidos en julios (J).

IK DEGREE GRADO IK	IK 00	IK 01	IK 02	IK 03	IK 04	IK 05	IK 06	IK 07	IK 08	IK 09	IK 10
ENERGY (J) ENERGÍA (J)	--	0.15	0.2	0.35	0.5	0.7	1	2	5	10	20
MASS & HEIGHT MASA Y ALTURA	--	0.2Kg 70mm	0.2Kg 100mm	0.2Kg 175mm	0.2Kg 250mm	0.2Kg 350mm	0.5Kg 200mm	0.5Kg 400mm	1.7Kg 295mm	5Kg 200mm	5Kg 400mm

## PROTECTION RATE GRADO DE PROTECCIÓN

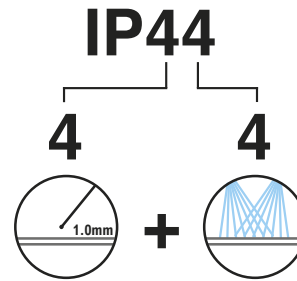

Protection rate against dust and wather.

Resistencia del artículo a la entrada de partículas externas como polvo y agua.

- Zona 0 IP67 / IP68
- Zona 1 IP45 / IP55 / P65
- Zona 2 IP44 Como mínimo / At least
- Zona 3 Sin requisitos especiales / Without special requirements

MARCO Air Cleaner

# Technology UV-C Tecnología UV-C

Our AIR CLEANER range of products disinfect and air sterilise using Philips UVC radiation germicidal tubes. They are safe and can be used in the presence of people as sterilisation is carried out by UVC radiation in an internal disinfection chamber.

Nuestra gama de productos AIR CLEANER, desinfectan y esterilizan al aire usando tubos Philips germicidas de radiación UVC. Son seguros y pueden ser utilizados en presencia de personas ya que dicha esterilización se efectúa mediante radiación UVC en una cámara de desinfección interna.

## How does it work? ¿Como funciona?

Our product sterilizes the air thanks to the action of UV-C tubes with properties against bacteria, fungi and viruses (including Covid-19\*); this technology, with results demonstrated by numerous studies, is safe and has an effectiveness of 99.9% against microorganisms.

Nuestros productos, esterilizan el aire gracias a la acción de tubos UV-C con propiedades contra bacterias, hongos y virus (incluido el Covid-19\*); dicha tecnología, con resultados demostrados por numerosos estudios, es segura y con una efectividad que puede llegar al 99.9% contra microorganismos.

Widely used by scientists for more than 40 years, UV-C radiation is a known disinfectant for air, surfaces and water.

Utilizada ampliamente por los científicos desde hace más de 40 años, la radiación UV-C es un desinfectante conocido para el aire, las superficies y el agua.

Its operation provides for a forced ventilation system that absorbs contaminated air; once inside the disinfection chamber the air comes into contact with maximum germicidal action UV-C radiation before being returned to the environment.

Su funcionamiento prevé un sistema de ventilación forzado que absorbe el aire contaminado, una vez dentro de la cámara de desinfección el aire entra en contacto con radiaciones UV-C de máxima acción germicida antes de ser de nuevo devuelto al ambiente.

We use tubes with germicidal technology from top brand Philips. En nuestros productos usamos tubos con tecnología germicida Philips.

The low pressure tube technology is more effective than many of the imported products that use UV-C LED radiation, as the low pressure tube radiation is at the wavelength with maximum germicidal effect, exactly 253.7nm.

La radiación de tubos tradicionales a baja presión es más eficaz que la radiación de tubos UV-C con tecnología Led, ya que la radiación de los tubos tradicionales se sitúa en la longitud de onda con máximo efecto germicida, exactamente 253.7 nm.

The product leaks no light so it can work continuously in the presence of people unlike direct radiation products that should only be used in the absence of living beings, with timer and presence sensor. El producto es hermético así que puede funcionar continuamente en presencia de personas a diferencia de productos de radiación directa que solo deben usarse en ausencia de seres vivos, con temporizador y sensor de presencia.

Our product is UV-C Free and Ozone Free. Nuestros productos es UV-C Free y Ozono Free.

The product is CE marked and tested in European laboratories. El producto tiene marcado CE y está ensayado en laboratorios europeos.

\*Studies on effectiveness were conducted on other viruses in the RNA coronavirus family such as Sars or Mers therefore this technology is also effective against Covid-19.

\*Los estudios sobre la efectividad se realizaron sobre otros virus de la familia de los coronavirus RNA como Sars o Mers por lo tanto se concluye esta tecnología es también efectiva contra el Covid-19.

Notre gamme de produits AIR CLEANER désinfecte et stérilise dans l'air à l'aide des tubes germicides UVC Philips. Ils sont sûrs et peuvent être utilisés en présence de personnes puisque cette stérilisation est réalisée par rayonnement UVC dans une chambre de désinfection interne. / Unsere AIR CLEANER Produktreihe desinfiziert und luftsterilisiert mit Hilfe von Philips UVC-Strahlungskeimtötungsröhren. Sie sind sicher und können in Anwesenheit von Personen verwendet werden, da die Sterilisation durch UVC-Strahlung in einer internen Desinfektionskammer erfolgt. / La nostra gamma di prodotti AIR CLEANER disinfecta e sterilizza l'aria utilizzando tubi germicidi Philips di radiazioni UVC. Sono sicuri e possono essere utilizzati in presenza di persone, poiché questa sterilizzazione viene effettuata utilizzando la radiazione UVC in una camera di disinfezione interna.

### Comment ça marche? Wie funktioniert es? Come funziona?

Notre produit stérilise l'air grâce à l'action des tubes UV-C aux propriétés contre les bactéries, les champignons et les virus (dont Covid-19 \*); Cette technologie, dont les résultats ont été démontrés par de nombreuses études, Il peut être sûr et efficace à 99,9% contre les micro-organismes / Unser Produkt sterilisiert die Luft dank der Wirkung von UV-C-Röhren mit Eigenschaften gegen Bakterien, Pilze und Viren (einschließlich Covid-19\*); diese Technologie, deren Ergebnisse durch zahlreiche Studien belegt sind, ist sicher und hat eine Wirksamkeit von 99,9% gegen Mikroorganismen / I nostri prodotti sterilizzano l'aria grazie all'azione dei tubi UV-C con proprietà contro batteri, funghi e virus (compreso Covid-19 \*); Questa tecnologia, con risultati dimostrati da numerosi studi, è sicura e con un'efficacia che può raggiungere il 99,9% contro i microrganismi.

Largelement utilisé par les scientifiques depuis plus de 40 ans, le rayonnement UV-C est un désinfectant connu pour l'air, les surfaces et l'eau / Die UV-C-Strahlung wird von Wissenschaftlern seit mehr als 40 Jahren eingesetzt und ist ein bekanntes Desinfektionsmittel für Luft, Oberflächen und Wasser / Utilizzata ampiamente dagli scienziati da oltre 40 anni, la radiazione UV-C è un noto disinfettante per aria, superfici e acqua.

Son fonctionnement prévoit un système de ventilation forcée qui absorbe l'air contaminé qui entre en contact avec le rayonnement UV-C avec une action germicide maximale avant d'être renvoyé dans l'environnement / Seine Funktionsweise ist basiert auf einem forcierten Belüftungssystem, das die kontaminierte Luft ansaugt. In der Desinfektionskammer kommt die Luft mit UV-C-Strahlung mit maximaler keimtötender Wirkung in Kontakt, bevor sie wieder an die Umgebung abgegeben wird / I suo funzionamento prevede un sistema di ventilazione forzata che assorbe l'aria inquinata, una volta all'interno della camera di disinfezione l'aria viene a contatto con la radiazione UV-C di massima azione germicida prima di essere nuovamente reimessa nell'ambiente.

Dans nos produits, nous utilisons des tubes avec la technologie germicide de Philips / Wir verwenden Röhren mit keimtötender Technologie der Spitzenmarke Philips / Nei nostri prodotti utilizziamo tubi con tecnologia germicida Philips.

Cette technologie de tube à basse pression est plus efficace que de nombreux produits importés qui utilisent un rayonnement. LED UV-C, car le rayonnement est situé à la longueur d'onde avec un effet germicide maximal, exactement 253,7 nm / Die Strahlung von traditionellen Niederdruckröhren ist effektiver als die Strahlung von UV-C-Röhren mit LED-Technologie, da die Strahlung von traditionellen Röhren bei der Wellenlänge mit maximaler keimtötender Wirkung liegt, genau 253,7 nm / La radiazione da tubi tradizionali a bassa pressione è più efficace della radiazione da tubi UV-C con tecnologia Led, poiché la radiazione da tubi tradizionali si trova alla lunghezza d'onda con massimo effetto germicida, esattamente 253,7 nm.

Le produit est étanche, il peut donc fonctionner en continu en présence de personnes contrairement aux autres produits qui exposent les tubes LED UV-C, ils ne doivent donc être utilisés qu'avec une minuterie et des capteurs de présence / Das Produkt ist luftdicht, so dass es in Anwesenheit von Personen kontinuierlich betrieben werden kann (im Gegensatz zu Produkten mit direkter Strahlung, die nur in Abwesenheit von Lebewesen verwendet werden sollten, mit Zeitschaltuhr und Anwesenheitssensor) / Il prodotto è ermetico quindi può funzionare in modo continuativo in presenza di persone a differenza dei prodotti a radiazione diretta che dovrebbero essere utilizzati solo in assenza di esseri viventi, con timer e sensore di presenza.

Nos produits sont UV-C Free et Ozono Free / Unser Produkt ist UV-C frei und Ozon frei / I nostri prodotti sono privi di UV-C e ozono.

Le produit est marqué CE et a été testé dans un laboratoire européen / Das Produkt ist CE-gekennzeichnet und in europäischen Labors getestet / Il prodotto è marcato CE e testato nei laboratori europei.

\* Les études sur l'efficacité ont été réalisées sur d'autres virus de la famille des coronavirus RNA tels que Sars ou Mers, donc il est conclu que cette technologie est aussi efficace contre Covid / \*Studien zur Wirksamkeit wurden an anderen Viren aus der Familie der RNA-Coronaviren wie Sars oder Mers durchgeführt, daher ist diese Technologie auch gegen Covid-19 wirksam / \* Gli studi sull'efficacia sono stati effettuati su altri virus della famiglia dei coronavirus a RNA come Sars o Mers, pertanto si conclude che questa tecnologia è efficace anche contro Covid-19.

**A sticker is enclosed with each product, with which you can identify your establishment as safe and free of bacteria, fungi and viruses.**

Con cada producto se adjunta un adhesivo con el que puede identificar su establecimiento como seguro y libre de bacterias, hongos y virus.

Un autocollant est inclus avec chaque produit afin que vous puissiez identifier votre établissement comme un espace sûr exempt de bactéries, champignons et virus.

Jedem Produkt liegt ein Aufkleber bei, mit dem Sie Ihre Einrichtung als sicher und frei von Bakterien, Pilzen und Viren kennzeichnen können.

Ad ogni prodotto è allegato un adesivo con il quale potete identificare il vostro stabilimento come sicuro ed esente da batteri, funghi e virus.

## GENERAL INFORMATION · INFORMACIÓN GENERAL · INFORMATIONS GÉNÉRALES · INFORMAZIONE GENERALE · ALLGEMEINE INFORMATION

---

The descriptions and dimensions of the items in this catalogue are indicative and may be modified for the purpose of technical or design improvements. We reserve the right to cancel or change all models without prior notice. All items meet the CE regulations for home lighting appliances.

Do not use stronger bulbs that recommended, and always clean lamps with a soft dry cloth. Metal polish will damage the protective finishings.

*All information in this catalogue merely serves as an indication and it is not binding for the company. The company reserves the right to modify any contents or information, even without prior notice. Brand names and logos belong to their legitimate owners.*

---

Las descripciones y medidas de los productos del presente catálogo son orientativas, pudiendo por tanto ser modificadas, a fin de mejorar las características técnicas o de diseño. La empresa se reserva el derecho de anular o modificar cualquier modelo sin previo aviso. Todos los modelos cumplen las normas exigidas por la CE para iluminación de uso doméstico.

Para una buena conservación de las lámparas, no usar bombillas de potencia superior a las recomendadas y limpiar solamente con un paño seco. No usar limpiametales ya que dañan los barnices protectores que garantizan la duración del acabado.

*Toda la información en este catálogo sirve simplemente como una indicación y no es vinculante para la empresa. La empresa se reserva el derecho de modificar o variar los productos para mejoras técnicas o estéticas sin previo aviso. Las marcas y los logotipos pertenecen a sus legítimos propietarios.*

---

Les descriptions et dimensions des produits de ce catalogue sont données à titre indicatif, et peuvent donc être modifiées afin d'améliorer les caractéristiques techniques ou de conception. La société se réserve le droit d'annuler ou de modifier tout modèle sans préavis. Tous les modèles répondent aux normes exigées par la CE pour l'éclairage à usage domestique.

Pour une bonne conservation des lampes, n'utilisez pas d'ampoules d'une puissance supérieure à celle recommandée et nettoyez uniquement avec un chiffon sec. Ne pas utiliser de nettoyeurs pour métaux car ils endommagent les vernis de protection qui garantissent la durée de la finition.

*Toutes les informations contenues dans ces catalogues ont une valeur indicative, et ne s'entendent pas contraignantes pour l'entreprise. La société se réserve le droit de modifier tout contenu ou information, en y apportant des améliorations techniques et visuelles, y compris sans communication préalable. Les marques et logos sont propriété de leurs dépositaires légitimes.*

---

Le descrizioni e le misure dei prodotti presenti in questo catalogo sono indicative, pertanto potranno essere modificate al fine di migliorarne le caratteristiche tecniche o di design. L'azienda si riserva il diritto di cancellare o modificare qualsiasi modello senza preavviso. Tutti i modelli soddisfano gli standard richiesti dalla CE per l'illuminazione di uso domestico.

Per una buona conservazione delle lampade, non utilizzare lampadine di potenza superiore a quella consigliata e pulire solo con un panno asciutto. Non utilizzare detergenti per metalli in quanto danneggiano le vernici protettive che garantiscono la durata della finitura.

*Tutte le informazioni presenti in questo catalogo sono soltanto indicative e non sono vincolanti per l'azienda. La società si riserva il diritto di modificare o effettuare variazioni sui prodotti per miglioramenti tecnici o estetici senza preavviso. I marchi e i loghi appartengono ai legittimi proprietari.*

---

Die Beschreibungen und Abmessungen der Artikel in diesem Katalog sind indikativ und können zum Zweck der technischen oder Designverbesserung geändert werden. Wir behalten uns das Recht vor, alle Modelle ohne vorherige Ankündigung zu streichen oder zu ändern. Alle Artikel entsprechen den CE-Vorschriften für Heimbeleuchtungsgeräte.

Verwenden Sie keine stärkeren Glühbirnen als empfohlen, und reinigen Sie die Lampen immer mit einem weichen, trockenen Tuch. Metallpoliermittel beschädigt die Schutzschicht.

*Alle Angaben in diesem Katalog dienen lediglich als Hinweis und sind für das Unternehmen nicht verbindlich. Das Unternehmen behält sich das Recht vor, Inhalte oder Informationen auch ohne vorherige Ankündigung zu ändern, um technische oder ästhetische Verbesserungen zu erreichen. Markennamen und Logos gehören ihren rechtmäßigen Eigentümern.*
